Responsibilities of Property Owner/Contractor:

- 1.) Make application for Sewage Treatment Permit at Town Clerk's Office. Application fee of \$50.00 must be made at time of application. Sketch the proposed system/changes on the back of the application or provide engineered drawings if available. No tanks or lines can be installed before contact with the Enforcement Officer. Failure to do so could result in a \$250.00 fine. Submit proposed septic design with application. Show relationship of water source(s) to septic.
- 2.) For new or proposed systems, a perk test is required. Property Owner/Contractor is responsible for digging holes for perk test. Perk test will be performed by the Enforcement Officer.
- 3.) Contact Enforcement Officer Bruce Kinney @607.656.8180 or by text @ 607.743.7654 to discuss arrangements for perk test/ and or construction of system. Town must have a copy of final changes/alterations made after installation of septic system.
- 4.) When system is complete, leave uncovered and contact Enforcement Officer for final approval of system.
- 5.) Contractor and Property Owner must sign this application before construction begins.

I have read the application and Responsibilities of Property Owner/Contractor for a Sewage Treatment System Permit in the Town of Smithville and agree to abide by the terms set therein and by Local Law #1, 1989, Town of Smithville Sanitary Regulations.
